

PEX Pocket Crimper – Item 7100

1. Simply slide a ring over the PEX tubing and insert your fitting with the copper ring positioned over the barbs on the fitting.
2. Center the two halves of the pocket crimper over the ring with your standard 10" locking pliers.
3. Squeeze the tool closed in four or five stages when the crimp is properly done, a piece of paper cannot be slipped between the jaws at the closest point.
4. Test the crimp with the go/no-go gauge. The go gauge should slide onto the fitting with ease. The no-go gauge must not slide over the fitting. If it does, the tubing must be recut.

 **WARNING:** This packaging can expose you to chemicals including Vinyl Chloride, which is known to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov.

 **ADVERTENCIA:** Este embalaje puede exponerle a químicos, incluyendo cloruro de vinilo, que es conocido por el Estado de California como causante de cáncer. Para mayor información, visite www.P65Warnings.ca.gov.
